

Requirements Changelog — v1.0 → v1.1

The Sunlit Wanderer Portrait Site Every change agreed since Requirements v1.0 was shared. Section numbers refer to v1.0.

Last updated: August 31, 2026

§6 — Sessions & Pricing

REVISE — Extended Session price \$425 → \$475

Reason: effective hourly rate was declining as tiers went up. Julie's own labor estimates (including comms, planning, culling, editing):

Tier	Price	Hours	Effective
Short	\$150	~3	\$50.00/hr
Full	\$275	~6	\$45.83/hr
Extended	\$475	~10	\$47.50/hr

At \$425 the Extended rate was \$42.50/hr — the lowest of the three, on the tier meant to be aspirational. \$475 corrects the inversion.

ADD — labor basis Record the hours-per-tier estimates above so future pricing decisions have a baseline.

RETAIN — all-inclusive delivery model All edited images delivered in gallery, 30-day download window, no restrict-and-unlock tiers. Confirmed as a genuine differentiator in the Montgomery County market. Do not change.

§7 — Session Tier Names

REVISE — tier names

Was	Now
Brief	Short
Standard	Full
Extended	Extended

Reason: "Standard" implied the default nobody chose; "Brief" read as *not enough*. "Short" describes scope rather than pace, which matters because §21 says sessions aren't run on a stopwatch. "Quick" was rejected — it implies rushed work and pattern-matches to cheaper mini-sessions.

Final: Short \$150 · Full \$275 · Extended \$475

§6 / §28 — Model Releases

ADD — release policy

Portfolio images used on this site require a **current signed release**. Julie will re-obtain signed releases from prior clients. This is the standard going forward from 2026.

Exception: images of family and friends from the 2010s are usable without new releases.

Not a launch blocker. Galleries populate as releases return. Location and category galleries publish with whatever is cleared.

Courtesy note (not a legal requirement): several subjects photographed as children are now adults. Worth a text before publishing childhood images.

§8 — Reviews

REVISE — placement

Distribute rather than stack. Three on the homepage, the rest where contextually relevant.

Review	Placement
Curtis H.	Homepage — leads

Marianne M.	Homepage
Emily A.	Homepage
Chris L.	Families & Kids page
Brie F.	High-School Seniors page
Jamie P.	Couples & Engagement page

REVISE — name format Single last initial throughout. v1.0 listed "Marianne M. K.", "Emily A. C.", "Jamie P. M." — two initials each, contradicting the stated rule.

FIX — spelling "Jaime P." and "Jamie P. M." are the same person. Correct spelling: **Jamie P.**

ADD — Maternity No Maternity review exists. Leave the slot empty rather than borrowing an unrelated one.

§9 — Locations

REVISE — launch list

Location	Status at launch
Sycamore State Park	Published
Wegerzyn Gardens	Published
Downtown Dayton / Oregon District	Published
Carriage Hill	Published (pending release check on existing images)
Cox Arboretum	Draft — no usable images with releases
Germantown Dam	Draft — never shot there

CLARIFY — Oregon District Part of Downtown Dayton, not a separate location. Merge into one entry.

ADD — partial publishing rule Locations may publish with known fields completed and unknown fields omitted. Empty fields do not display. This replaces any requirement that all fields be populated before publishing.

ADD — status field *draft* / *published* controls visibility. Deferred locations exist in the files but do not appear on the site.

REJECTED — "be the first client here" framing for Germantown Dam. Asks a paying client to gamble on a setting they can't see, and contradicts the purpose of the Locations page.

§29 — Contact & Privacy

REVISE — Messenger link <https://m.me/311951671232>

The Facebook page has no username. Meta no longer offers custom page usernames on newer pages. The numeric page ID is functional and carries no privacy risk.

ADD — display rule The Messenger link must always appear as a button labeled "Message me." Never display the raw URL.

REVISE — phone (513) 318-7278 (Google Voice) is the only number published anywhere, including business cards, flyers, and the site.

ADD — privacy prohibitions

- Personal number (937) 672-1108 appears nowhere
 - No links to Julie's personal Facebook profile
 - No facebook.com/thesunlitwanderer vanity URL — it does not resolve. Do not print it.
-

§30 — Pinterest

REVISE — board count Eleven boards created (not twelve). Nine link from session pages; two are reserved for the unpublished Resources page.

ADD — canonical URLs

Families & Kids

- <https://www.pinterest.com/thesunlitwanderer/families-kids-portraits-inspiration/>
- <https://www.pinterest.com/thesunlitwanderer/families-kids-outfits-props-inspiration/>

High School Seniors

- <https://www.pinterest.com/thesunlitwanderer/high-school-senior-boys-portraits-inspiration/>
- <https://www.pinterest.com/thesunlitwanderer/high-school-senior-girls-portraits-inspiration/>
- <https://www.pinterest.com/thesunlitwanderer/high-school-seniors-outfits-props-ideas/>

Couples & Engagement

- <https://www.pinterest.com/thesunlitwanderer/couples-engagement-portraits-inspiration/>
- <https://www.pinterest.com/thesunlitwanderer/couples-engagement-props-inspiration/>

Maternity

- <https://www.pinterest.com/thesunlitwanderer/maternity-portraits-inspiration/>
- <https://www.pinterest.com/thesunlitwanderer/maternity-outfits-props-inspiration/>

Using Your New Portraits — RESERVED, not linked at launch

- <https://www.pinterest.com/thesunlitwanderer/choosing-right-size-art-for-your-walls/>
- <https://www.pinterest.com/thesunlitwanderer/decorate-your-home-photo-gifts-ideas/>

NOTE — Couples board naming Board name reads "Outfits & Props Inspiration"; URL slug says only **props**. Label by board name on the site. Slug is cosmetic.

Booking — ShootProof

ADD — booking URLs

Purpose	URL
All options	https://thesunlitwanderer.shootproof.com/booking

Short	https://thesunlitwanderer.shootproof.com/booking/the-short
Full	https://thesunlitwanderer.shootproof.com/booking/the-standard
Extended	https://thesunlitwanderer.shootproof.com/booking/the-extended

 **UNRESOLVED — slug mismatch.** The Full tier's URL still says `the-standard` from before the rename. Either rename the ShootProof session type (which changes the URL) or accept that the public tier name and the URL differ. Cosmetic, but decide before launch.

ADD — session type structure Three session types, one per tier. **Not** one generic type, and **not** one per category.

Reason: a single type can't block the right amount of time — Short is 15 minutes, Extended is 90. Category doesn't need its own type because a 40-minute session takes 40 minutes regardless.

ADD — calendar durations Block **30 / 60 / 120 minutes** for Short / Full / Extended — longer than the shooting time, to cover early arrival, introductions, acclimating children, and movement between locations. The client still sees the approximate shooting time on the website.

ADD — category capture Session category (family / senior / maternity / couple) is captured in the **questionnaire**, not by session type.

ADD — payment model \$0 at booking. **Balance due at time of session.** Tipping enabled in ShootProof.

Reasoning: with the all-inclusive model, the session fee is 100% of revenue — there is no second sale. Pay-after-gallery would risk the session *and* 3–10 hours of editing. Payment at session risks only the time slot.

ADD — deposit contingency If two no-shows occur, revisit a 10% nonrefundable booking fee: \$15 / \$27.50 / \$47.50.

ADD — booking rules

- Minimum lead time: **7 days** (never below 5). Required so the contract, questionnaire, and prep guide can be sent and actually read.
- Blackout dates: son's senior events and portraits, holidays, planned photography trips
- Buffer between bookings: 30–45 minutes for travel
- Reschedule settings configured to enforce the 48-hour policy
- Block midday (11am–4pm) in summer — harsh overhead light

ADD — seasonal availability (last session START time)

	Short	Full	Extended
September	7:00pm	6:30pm	5:30pm
October	6:15pm	5:45pm	4:45pm
Nov–Dec	4:45pm	4:15pm	3:15pm

 **Daylight saving ends Sunday, November 1, 2026.** Sunset drops from 6:37pm to 5:36pm overnight. Calendar must be adjusted that week.

Morning start stays at **8:00am** year-round. In mid-October, 8am is genuine golden hour.

§53 — Missing Assets

REVISE — current state

Before build:

- Facebook page handle — RESOLVED (numeric ID)
- Pinterest URLs — RESOLVED
- ShootProof URLs — RESOLVED (slug mismatch noted above)

Before launch:

- Signed releases for portfolio images
 - Homepage hero image
 - 12–20 homepage mixed portfolio images
 - Category galleries: Families (in progress), Seniors, Maternity, Couples
 - Location galleries: 4–10 images each, four locations
 - Location logistics: walking, restrooms, parking, accessibility, best seasons
 - About photo and copy
 - Final logo, thicker handwritten wordmark, sun icon, favicon
 - ShootProof configuration complete
 - Subdomain DNS record in Shopify
 - Sales tax determination
-

§59 — Hosting & Framework

ADD

- Framework: **Astro** — static HTML output, content in readable JSON and markdown
 - Host: **Cloudflare Pages** — free, automatic HTTPS, subdomain support, preview per change
 - Version control: **GitHub**
 - DNS: managed by Shopify; one CNAME record required for the **portraits** subdomain
-

§62 — Build Process

ADD — working method

Claude writes files → Julie uploads via GitHub web interface → Cloudflare builds a preview → Julie approves → production.

The GitHub connector in chat provides **read access only**. Writing to a repo requires Claude Code, which is a separate tool. Migration to Claude Code is worth revisiting once the site exists and updates become routine.

Requirements v1.0 remains intact. Changes are tracked in this changelog rather than by rewriting the source document.

New Sections to Add

Sales Tax — OPEN

Ohio taxability of photography services and digital delivery must be confirmed with an accountant **before the first booking**. Preliminary assumption — services and digital files only, no physical product, therefore no sales tax — is unverified and must not be relied on.

Design & Order Service — FUTURE

Gallery wall design (sizes, layout, vendor selection, ordering) is roughly 90 minutes of work. At a 25% design fee on a \$600 order that is ~\$100/hour, more than double the session rate.

Currently a footnote. Should become a named, priced service. It is the natural bridge between the portrait side and the wall-art side of the brand, and the two reserved Pinterest boards are its seed.

Business Card — REVISION REQUIRED

Before reprinting:

- Google Voice number only
- Remove WhatsApp icon (use a plain phone icon)
- Replace shopping-bag icon with a globe for the website
- Reduce five contact methods to three
- Remove the Canva "C" from the center of the QR code
- Change QR modules from hearts to squares or rounded squares
- Add 0.125" bleed on all sides
- Test the QR on at least three phones before ordering

Existing Shopify Portraits Page — INTERIM FIX

thesunlitwanderer.com/pages/portraits is live and receiving QR traffic now. Before the new site exists:

- State session prices in plain text near the top
 - Add a real "Book Your Session" button (HTML button, not a text link) at top and bottom
 - Reorder for mobile: what it costs → book → images → how it works → digitals → locations → policies → book
 - Add 4–5 more images, including a family with young children
-

Content Decisions Made

Families & Kids gallery — leading images identified:

1. Girl in pink dress at the fence — strongest frame, leads the page
2. Overhead family on the quilt, black and white — most distinctive
3. Mother and daughter at the fence — strongest relationship image
4. Black-and-white girl with flower in hair — captures a moment, not a pose

Supporting: two kids cheek-to-cheek · baby with teddy bear · boy on boardwalk

Excluded: three family images in matching white tops and khaki — they contradict the "coordinate, don't match" guidance on the What to Wear page. Also excluded: two kids by the pond (wide-angle distortion, cluttered background) and girl with long shadow (dated processing).

Gaps to fill: boys past toddler age · babies and toddlers · larger families (5+) · engaged dads · autumn and winter sessions.

Image export standard: long edge ~2000px, quality 80, lowercase hyphenated filenames (families-01-pink-dress-fence.jpg).
